# THE MOTHER OF SOLDIER WRITES

Interesting Letter About Her  
Trip to Camp Sherman.  
Son Was Ill.

Having just returned from Camp Sherman whither a wired message summoned me to the bedside of my son who was critically ill I feel that after ten days mostly spent in one of the two pneumonia wards at the base

hospital, where there were seventy cases of this disease, I'd be ungrateful for the courtesies shown me and disloyal to my government did I not tell the mothers of America as "one having authority" that nothing is left undone which may contribute to their sons' well being. Tenderness surrounds the sick on all sides. Skillful surgeons, actuated by sublime disregard of their ease, conscientious nurses maintaining cheerfulness gentleness their constant ministrations, facilities which only the most scientific plans could assemble combine to make the war hospitals ideal.

Representatives of the Y. M. C. A., W. C. T. U. and K. of C. visit forty wards accommodating fourteen hundred patients, write letters boys and in various ways

add to their comfort. The Library at the Base Hospital is filled with books contributed by local citizens and is a source of delight to the convalescents. Community House, built by the Red Cross Society, has dancing space, rest rooms, lecture platform, post office and dining service, though built for temporary use it is artistic and beautiful. The insignia of the Society is every where in evidence: columns and woodwork emblazoned with—the Red Cross. Here one finds among the soldiers a "bon camaraderie" that

is truly commendable. "High and exalted thoughts in a heart of courage," seems to be the motto of the men. Of course there are exceptions. The Duke of Wellington said, 'A uniform does not make a soldier,' nor does a uniform make a gentleman.

Snobs and ruffians as soldiers

### Hunger Flags Are Flying

An editorial in the May Women's Home Companion says:

"It has been more than a year since this news came from Amsterdam: 'A few days ago there was displayed from the belfry of Lanaken, Belgium, the "flag of misery" or "hunger flag," and the tocsin was sounded to let the surrounding country know that city was dying of hunger. There was nothing to eat anywhere: no bread, no potatoes, not one of the absolutely necessary foods. Measures were taken at once to relieve this town—but who can tell how many hunger flags will fly from towns oppressed by the Boches?"

"Not only Belgium, but other sections must see the hunger flag unless every housewife helps us to win the war, helps in the kitchen by caring for not only her own son, but all children, by giving wise war service, or by joining, or training to join, the ranks of labor."

## KENTUCKY WILLS TO WIN THE WAR

PEOPLE DISPLAY THE RIGHT SPIRIT TO HELP BOYS AT FRONT.

## ARE WILLING TO SAVE WHEAT

Food Administrator Delighted With Splendid Enthusiasm of Blue-Grass State To Give Up Men, Money and Food For Liberty's Cause.

—Louisville, Ky.  
Telling blows against the Germans are being struck by the Food Army of Kentucky—the army which includes all the farmers of the country, all the city people who are raising war gardens, and all the people in both city and country who sit down to three square meals a day. All parts of the state are represented in the army raised by the Food Administration and which, under the banner reading "Food Will Win the War" is conducting the big Spring Offensive against waste at home and hunger and want in the ranks of the Allied soldiers and their dependents.

Federal Food Administrator F. M. Sackett is pleased at the work being done. Kentucky is a hard state to reach, but it can be reached, and it has been reached. Mr. Hoover's admonition, "Food Will Win the War," is being heeded, and President Wilson's injunction to "enlist in the service of the Food Administration" is being followed unreservedly.

Every county in the state has a Food Administrator. Any mill, any merchant, any farmer, any consumer troubled by a vexing technical regulation can get his troubles removed, or settled, by going to the nearest county seat. And the administrators without exception report a willingness to cooperate which is met with everywhere. "If wheat is needed, wheat will be raised in any county, even though a financial loss is entailed," is the way one administrator put it in conversation recently. "Then if it is necessary the people who raise it will sell it all, so our soldiers and their associates in arms can get it, and themselves eat cornbread all the year."

Something of that same spirit has been manifested both by producers and consumers everywhere in Kentucky. Mr. Sackett was not at all surprised at the response with which the latest wheat-saving regulation was promulgated, for this very reason. The latest regulation says no person must eat more than six pounds of wheat a month, which is one and one-half pounds a week.

"And that means six pounds of all kinds of wheat products, too," one administrator explained. "It doesn't mean six pounds of bread, and then a lot of macaroni and cakes and crackers, too. It means six pounds of wheat products per person per month."

Soldiers and their families must have bread. Wheat is the only bread-making product which can be sent to Europe now. Corn would germinate during the long journey. American and Allied soldiers must have wheat bread or quit fighting; hence the Food Administration has asked the people of Kentucky to limit themselves to six pounds of wheat flour per month.

**Continue Wheatless Days.**  
Federal Food Administrator F. M. Sackett advises the continuance of wheatless days. "Continued observance of wheatless days and meals will aid in keeping consumption down," Mr. Sackett said. "People are offered the alternative of saving wheat by doing without entirely on certain days and meals, or by using less at all times, but I would recommend both."

Wheat is a military necessity and individual consumption must be limited to six pounds a month if we are to win the war. "Potato Week" has been highly successful. Merchants everywhere pushed the sale of potatoes and it is believed potatoes were found on the dining table at every meal in a majority of homes. Mr. John W. Burns, of the Food Administration office in Louisville, who has had years of experience in the milling business, estimates that the people of Kentucky have saved 10,000 barrels of flour by eating potatoes during "Potato Week."

**No Seizure Needed Here.**  
The Washington bureau from Washington that the appeal to farmers of the whole United States to be patriotic and to give all their wheat to the government has not with an unsatisfactory response. In some sections of the country the farmers have been rather distrustful of the Washington announcement and have put in placard words, it was reported. "Some American farmers are patriotic. They think more of getting a little extra money for their wheat than they do of the American and Allied soldiers who need it so badly."

The Washington has sent out another announcement. It is that unless a farmer market their wheat by May 1 the government may seize it.

## Following Letter Explains.

Mr. R. F. Dorr,  
Marion, Ky.,

Dear Mr. Dorr:  
I am just in receipt of a copy of the Crittenden Record-Press of Thursday the 18th, and notice the splendid ad which you donated to the Liberty Loan cause.

As you probably know, the Western District of Kentucky leads the United States in subscriptions for the Third Liberty Loan. This result has been accomplished by the splendid co-operation of such men as you, who are willing to spend their own money to help in the distribution of the bonds in their communities.

I wish to thank you in behalf of the Liberty Loan Organization of Western Kentucky for your splendid co-operation.

Yours very truly,  
JAMES C. WILSON,  
Vice Chairman.
